## URGENT SOS

October 16, 2007

Dear Pastor and Church,

This is to ask you and your church to pray for our ministry in Vanuatu as an urgent situation has arisen and we are asking all our supporting church for pray and help as the Lord leads.

Before leaving Vanuatu for furlough we applied for a loan to build three new classrooms for our school. We were assured by the bank officer there would be no problem, however we have had an email from our son-in-law, Jim, saying the bank had finally declined the loan (after three months) on the basis that our school is only three years old and they need a financial record of five to seven years to approve a loan.

This has created an urgent need as we do not have a classroom for all of our classes for the new school year starting at the end of January. We have 74 students currently and have no place to put our second grade and third grade classes. With the new intake we will have almost 100 students.

How can you help? We are praying our churches will be willing and able to help us with this school ministry special. If thirty churches could help us with a thousand dollars each we would be able to get the classrooms started and completed by the new school year.

During the past year we have had four complete families saved and baptized as a result of our school ministry. Please help us continue to win these kids and their families to the Lord.

If you can help with this need please email me and let me know where we can go back to the building contractor. Please mark your contribution "School Special".

Thank you for praying and helping with this urgent need. We know God can do abundantly above what we ask.

In His Service

*Steve and Lynn Spore*
